the check to the Chinese proprietor of the Bon Ton restaurant, after eating a meal at the place. The proprietor suspected the check was bogus and called Patrolman Kellher, who placed Wilson under arrest. Wilson told the officer that Dr. Conroy had given him the check that day and that they had known each other for many years. When Dr. Conroy was called on the telephone he disclaimed any knowledge of the man and repudiated the check. Later Wilson confessed to forging the check.

There will be a grand Charity Ball given by the Ogden Stake Relief Board at the Weber Academy, Monday evening, Feb. 22nd, 1909. Special numbers of old-time dances. Admission 50 cents per couple.

**Robbed by Negro Women.**—An unusual case of robbery was reported to the police late Saturday night by a stranger who was passing through the city, accompanied by his wife and children. The passenger, whose name is withheld by the police, stopped over at the Union Depot for several hours awaiting a train for the north. Leaving his family at the depot, the stranger walked about the city visiting several saloons. At the corner of Twenty-seventh street and Wall avenue, he was accosted by a negro woman who proceeded to rifle his pockets unawares. After returning to the depot, the stranger missed his pocketbook, which contained \$255 in bills, which the "dip" had deftly extracted from his person. One of the bills was of \$100 denomination, one \$50 and the others of smaller denominations. Before taking a late train out of the city, the stranger left a description of the woman with the police. She is described as being a mulatto, closely resembling an Indian squaw. The police say the man had consorted with the woman and she is thought to be one of several women who make a practice of coming here from Salt Lake to obtain victims.

Eat the Hess—the crackers that are making Ogden famous.

**Improving Rio Grande.**—General Superintendent Dalley of the Utah division of the Rio Grande system is at present making a thorough inspection of his territory, accompanied by members of his staff, and the order has gone out for radical track improvements all along the division. The road is to be put in the best possible condition for heavy traffic from Ogden to Grand Junction, and a determined effort will be made to have passenger service improved and trains operated over the division on strictly schedule card time.

Say! Do you know how many policies of the Non-Board Companies who write "Just as good insurance for less money," you are now carrying in companies that have failed in the last few days? If not, look it up and call for further information on KELLY & HEERICK, "Insurance that protects."

**On a Business Trip.**—General Superintendent J. M. Davis of the Oregon Short Line will leave tonight for a business trip to New Orleans.

What is the best thing on earth? Why, Hess's crackers.

**Representing the Burlington.**—A. L. Groves of the Burlington passenger department is in the city on business connected with that system.

million dollars of this amount is to be expended in rebuilding the Missouri Pacific line between Kansas City and Pueblo, where the Denver & Rio Grande lines connect. The Rio Grande lines are to be re-ballasted and ninety-pound rails put in. The physical condition of the Missouri Pacific lines in Kansas and Colorado is such that it will be necessary to practically rebuild the road west of Kansas City.

## DIED

**BYBEE.**—At Uintah, at 12:40 a. m., Sunday, John M. Bybee.

Funeral services will be held Tuesday, at 2 o'clock, at the Uintah meeting house.

**WHITE.**—At the family residence, 508, Twenty-eighth street, Sunday, at 2:30 p. m., Esther White, wife of George W. White. Deceased was born in England Nov. 4, 1846. Resided in Ogden ten years. Survived by husband and several children. Time and place of funeral will be announced later.

## WRECK WEST OF ECHO SUNDAY

CARLOADS OF COAL ARE SCATTERED OVER THE COUNTRY.

Union Pacific Blocked For Many Hours By an Accident to a Freight Train.

The Union Pacific wreck two miles west of Echo Sunday at 11:15 has been cleaned up sufficiently to permit the resumption of traffic. A broken wheel on one of the gondolas derailed ten cars of coal in the freight train No. 274, in charge of Conductor Schnell and Engineer Burke, and in the twinkling of an eye the cars were piled up and a wealth of good Rock Springs coal scattered all over that section of Morgan county.

The accident was unavoidable and no blame attaches to employees. No one was injured.

Trains are on schedule time today, although more than a dozen freight and passenger trains were blocked yesterday as a result of the mix-up.

## TOOK HORSE AND BUGGY WITH THEM

LITTLE GIRL AND HER BROTHER HAVE A TIME.

Sheriff's Office Called Upon to Trace Louie and Levi Murdock Who Suddenly Left Home.

Little Louie Murdock, the 13-year-old girl who has apparently developed a mania for running off with horses belonging to other people, has broken out afresh once more and yesterday, accompanied by her twin brother, appropriated a horse and buggy belonging to Bishop James Martin, Sr., of Farr West and skipped for Salt Lake. The two fugitives were arrested this morning at Layton, en route to the capital city, and will be brought back to Ogden by Sheriff Wade of Davis county, who made the arrest on telegraphic instructions from Sheriff Wilson.

Louie Murdock is the daughter of Mrs. Emma Haley, who resides on Lincoln avenue by a former place, and this is the third escape of a similar nature in which the girl has figured during the last six months. Ago. When arraigned before Judge Gunnell of the juvenile court, Louie told a pathetic story of abuse received from her stepmother and his father, after investigation decided to give the girl another chance before sending her to the industrial school. With this purpose in view he found a comfortable home for Louie at the residence of Mr. and Mrs. Gus Braun on Canyon road, and the little girl, since then, until this latest adventure, has been all that could have been desired. She had a good home, was attending school regularly and Judge Gunnell was highly pleased at what he believed was her entire reformation.

Her brother, Levi, has been living with Bishop and Mrs. Martin at Farr West, and yesterday Louie received permission from Mrs. Braun to visit him. While there Bishop and Mrs. Martin drove to Ogden to attend church, and during their absence Louie and Levi conceived the brilliant scheme of taking an excursion to the capital city. Without unnecessary delay they harnessed a horse, hitched the animal to Mrs. Martin's buggy and drove out for the metropolis, without leaving anything to indicate where they had gone.

Returning from church last evening, Bishop Martin missed the horse and rig, and knowing of the girl's reputation for acquiring property of this character for excursion purposes, he advised Sheriff Wilson of the facts. The latter sent out wires in various directions to intercept the runaways, and this morning Sheriff Wade gathered in the youthful couple as they were joggling along to the Temple City. The horse showed hard travel. Just where the couple have been wandering since Sunday is not known at this time.

Beyond noting the fact that they were en route to Salt Lake City, they gave no explanation of their purpose or intention, and will explain the situation to his honor in the juvenile court when they are arraigned.

Don't let the baby suffer from eczema, sores or any itching of the skin. Doan's Ointment gives instant relief, cures quickly. Perfectly safe for children. All druggists sell it.

## BAMBERGER OUTLINES PLANS

MILLION DOLLARS TO BE EXPENDED ON HIS ROAD.

When Electrified, Cars Will Run Every Hour and Every Third Car Will Make Only One Stop.

Simon Bamberger, president of the Salt Lake & Ogden Railroad company, was in Ogden today outlining business matters, and, for the first time since his return from the east, gave out considerable information regarding his plans for the coming season. In answer to various questions regarding the contemplated improvements on the new road for the coming season, Mr. Bamberger said:

"We have arranged a number of important matters of late and active operations will be started as soon as the weather conditions permit. There will be probably a hundred men at work on the different jobs as soon as the work starts. Many will be engaged in setting poles, stringing wires, placing copper connections between the rails, extending the sidings and in various ways, preparing for the early electrifying of the road.

"There will be twenty sidings or more and the work of double-tracking will progress rapidly by extending these. In anticipation of the double track, double trolley wires will be installed. I purchased 600,000 pounds of copper for this purpose while in the east. We have contracted for 4,000 poles to be used between here and Salt Lake. These will, of course, be of wood, while within the limits of Ogden steel poles will be installed.

"There are about 40 men now at work completing the overhead crossing, besides two trains. This work will be finished in the near future.

"We will spend \$550,000 this year in improvements and contemplate an additional expenditure of \$350,000 for future double-tracking, the erection of stations, etc. This \$550,000, of course, includes all expenditures such as for new cars and other equipment.

"The new cars, of which there will be at least twelve, are now being built upon for construction by eastern manufacturers and contracts will be let as soon as I return to the east. The cars will be elegant in every detail. They will cost \$14,000 each and will be built with the latest combination of elaborate conveniences for the traveling public. To compete with the other roads, we will have to have the best equipment and that will certainly be provided. The cars will be 66 feet in length and will accommodate 60 people. Everything will be richly finished, with upholstered seats, padded windows with stained glass transoms and decorative work, elegant toilet apartments, etc.

"Our intentions are to run cars from each end once every hour. Half of the cars will be combination baggage, passenger and smoker cars, while the other half will be combination passenger and smoker. Every third car to leave either end will be termed an express car which will stop only once between Ogden and Salt Lake, that station, of course, being Lagoon.

"As is well known, the Ogden City terminal will be at the corner of Grant avenue and Twenty-second street. The station will be built on the southeast corner, where we now own a "V" shaped tract of land. Double-tracking and the erection of a station house will be made as soon as the other improvements have been completed, and in the meantime the road will be kept open to the public. The station will be a masterpiece of architecture, while the latter are necessities and will have to come first."

## NOTABLE EVENTS IN WEEK'S SCHEDULE

The present week will be notable in that it will contain a celebration of the birth of Washington, the closing days of the administration of Roosevelt, the twenty-sixth president, and the active arrangements for the inauguration of President-Elect Taft.

The flesh-pot fleet will arrive home on Monday, the popular welcome at Hampton Roads being added to by the presence of the commander-in-chief. President-Elect Taft will deliver the oration at the exercises of the University of Pennsylvania Monday, and on the evening will be a guest at the alumni dinner. Tuesday Mr. Taft will go to New York, where he is scheduled to speak that evening. Wednesday he will go to Washington, there to remain until the inauguration unless he should decide to accept the invitation to the dinner to be given in New York Friday night by the Peace society in honor of Senator Root.

The National Press association will meet at Chicago Tuesday to Thursday. The American Institute of Mining Engineers at New Haven Friday; the Trans-Missouri Dry Farming Congress at Cheyenne, Wyo., Tuesday; and the national session of the Presbyterian Brotherhood of America will open at Pittsburgh Tuesday.

The National Congress of the American Bowling association will open at Pittsburgh Saturday. At Buffalo, on Thursday night, Longbeach and Shrub will meet in a fifteen mile race.

## TERRIFIC WINDSTORM SWEEPS EUREKA, KAS.

Eureka, Kas., Feb. 22.—A terrific windstorm swept over the country about 10 miles west of Eureka, about 4 o'clock this morning. Several persons are known to have been injured, although all wires are down and information is meager.

The residence of Frank Sallards, who lives seven miles northwest of Eureka, was destroyed, and Mrs. Sallards and daughter were badly injured. North of Eureka, the residence of John Alexander was wrecked, and his wife badly hurt. Owing to all telephone lines being down, a complete list of the injured cannot be obtained, although many others were undoubtedly hurt.

**WRIGHTS**

## JUNKET WAS VOTED BIG SUCCESS

MAYOR, CITY COUNCIL AND WATERWORKS ENTERTAINED.

Judge Howell Also a Guest of the Railroad People—Trip Across the Lake in a Private Car.

Aside from Mayor Brewer and all members of the Ogden City council, except Messrs. Powers and Browning, those who took part in the junketing trip over the Ogden-Lucien cut-off Sunday included Judge Howell, County Commissioner Oscar Madison, Chief of Police Thomas Browning, Charles Kircher, superintendent of the waterworks system, and others of lesser official importance.

The party occupied the private car of Superintendent Manson, and Traveling Freight Agent P. H. Cook of the Harriman system acted the agreeable part of host. The trip was extended to Lucien and the inhabitants of that little burg were charmingly entertained by the visitors with athletic performances in the way of running races, jumping contests, shooting matches and tall and lofty acrobatic feats of a circusian nature.

One of the interesting events of the occasion was a sprinting contest between Mayor Brewer, Commissioner Madison and P. H. Cook, and, while the race was won by the latter, the prize was awarded Mayor Brewer for the artistic manner in which he turned a double summersault when reaching the goal.

Owing to heavy winds the lake was restless, the great waves rolling over the trestlework, and to ward off and prevent anything akin to seasickness, Dr. Cook prescribed stimulants of a substantial and yet pleasant nature, and the wide variety included everything from Becker's best to champagne.

The members of the party returned to Ogden Sunday evening well satisfied with the trip and voting Traveling Agent Cook and the Harriman management royal entertainers.

## SOLONS' TRIP TO LUCIN WAS PLEASANT OUTING.

Mayor Brewer, Councilmen Thomas Peery, Dana, Wilson, Flygare and Austin, with a few invited guests, junketed across the lake to Lucien yesterday, returning late in the afternoon. The purpose of the trip, explained by some of the solons, was to use the annual passes held by the members of the council and the mayor, and to see the great cut-off, which is designated as the handiwork of the most modern engineering known. Some of the councilmen had not yet seen the span of steel across the salt waters.

The company gratefully accepted the courtesy of Superintendent Manson, who tendered them the use of his private car. The trip was quite uneventful so far as the casual observer was concerned, but a genuinely pleasant outing was had and the solons returned home much gratified that they had seen the famous piece of road. Councilman Thomas took his rifle along, but, according to the statement of Peery, nothing was shot. All members of the party disclaimed any deep seated plot, either on their part or that of the railroad company, in taking the trip. They stated that it was simply a day's outing for innocent pastime.

## WESTBOUND TRAIN WRECKED NEAR ECHO.

A west bound train load of coal was wrecked yesterday morning near Echo, on the Union Pacific, which blocked passenger and freight traffic both ways during the entire day.

All east bound trains were held in the Ogden yards during the day. It being 3:30 o'clock last evening before they were released. Trains going west were held at Echo and did not arrive in Ogden until 8 o'clock last evening. Just what damage was done could not be learned here last evening, but it was authoritatively given out that no lives were lost and no one was injured.

Wrecking crews were promptly sent to the scene of the accident and they worked assiduously all day clearing away the wreckage. The cause of the wreck could not be learned last night. It is said that there were ten heavy gondola cars loaded with coal in the wreck and that the smashup must have been of considerable moment.

## TERRIBLE SNOWSTORMS PREVAIL IN RUSSIA.

Kiev, Russia, Feb. 21.—Terrible snowstorms have prevailed for the past two weeks, and two thousand miles of the tracks of the Southwest-railway are blocked.

## FATHER'S MONEY FOR A WFUL CRIME RAILROAD MEN

SOUTHERN PACIFIC EMPLOYEES RECEIVING THEIR CASH.

## Cuts Throats of His Four Children, Fires Home And Suicides

Conservatively Estimated That Nearly \$100,000 Will Be Distributed in Ogden This Month.

The anniversary of Washington's birthday was generally observed in all departments at railroad headquarters and nearly all the offices observed Sunday hours. The show were closed down all day, only a few men necessary to keep engines ready for train service being at work. The pay checks were distributed in the various Southern Pacific departments, and Cashier Medway had stacks of up like cordwood all around his office to honor the checks as the procession of Harriman employees moved like an army in that direction.

It is conservatively estimated that nearly \$100,000 will be distributed to local employees in Ogden this month—and that helps out some.

## BELL BOY INHERITS \$32,000 FORTUNE

San Francisco, Feb. 21.—John Douglas, a twenty-four-year-old bell boy, employed at the Marx hotel in this city, has received word from a New York law firm that he is named in the will of Colonel G. H. Warfield, recently deceased, as the inheritor of \$32,000. Douglas formerly was a polo pony jockey and rode for Colonel Warfield, who became attached to the boy and kept him in mind when drawing up his will. The lucky youth says that he will travel in Europe for a time.

## FUNERAL OF REAR ADMIRAL COTTON

Nice, Feb. 21.—The funeral services today over the body of Rear Admiral Charles S. Cotton, U. S. N. (retired), who died on Friday, were attended by the American and British consuls, Rear Admiral Franklin J. Drake, U. S. N. (retired), Rear Admiral L. G. Jones, U. S. N. (retired), Admiral Peery of the British navy, Major and Mrs. Webster Iselin, and many other friends of the late admiral. The coffin was wrapped in an American flag and covered with flowers. The body will be cremated at Marseilles tomorrow and the ashes sent to the United States on board a battleship.

## THE STAY-AWAYS.

I don't wonder that husbands and sons sometimes stay away from home. In fact, I wonder that some of them ever go back. A woman is in a very good position to know just how women do at times, and some of the home "atmospheres" are anything but celestial, all because of wrangling that seems to live and thrive in so many homes. It is unpleasant to be in a house where always, so that no blessed thing seems to please them. It is not very pleasant for a tired man to go home to anything like that, and not many do it. It is so easy to eat oyster soup down town and escape that supper harangue at home. We all lose our temper once in a while, but every woman should keep a search warrant in her pocket and find it before the family comes home. It isn't always possible to have the dove of peace in the house, but who wants a nagging chatterbox to the motto "Home, Sweet Home," that doleful rhapsody of Poe's: "Nevermore, no nevermore?" And when it reaches the nevermore stage, then husbands, sons, daughters and friends stay away; no one calls but the collectors, and they don't want to.

## TAFT ARRIVES IN PHILADELPHIA

Philadelphia, Feb. 21.—President-elect Taft arrived here this morning from Cincinnati, and, with Mrs. Taft, who came from New York to join him, is the guest of Dr. S. Weir Mitchell, his Walnut street home. Mrs. Taft attended services at the Unitarian church and with Mr. Taft drove to Bryn Mawr, where they called on their daughter Helen, and returned with her in their automobile to dinner at the Mitchell residence. A conference took place between the president-elect and Frank H. Hitchcock, who came at the request of Mr. Taft. Frank B. Kellogg was also a visitor.

Although it was early in the morning when Mr. Taft alighted from his Cincinnati train at North Philadelphia, he was greeted by an enthusiastic crowd. When a few minutes later he stepped from his automobile at the Mitchell residence, the street was blocked with people, who cheered as they caught a glimpse of the bulky form of the Ohioan and of the beaming Taft smile.

In an account of his day here, Mr. Taft laughingly remarked that he had awakened Philadelphia up at the unusual Sunday morning hour of 7 o'clock, for which he felt he owed an apology.

The report printed today that as President-elect Taft would go to Alaska, Mr. Taft said, had only the foundation that he had received an invitation for such a trip and had replied that he would hold it under consideration. This same answer he said likewise applied to inquiries to visit Denver and Seattle next summer. He has not yet decided what his traveling itinerary for the year will be, except that he will make a trip through the South and Southwest as far as Texas. An address will be delivered by Judge Taft at the Academy of Music here tomorrow morning under the auspices of the University of Pennsylvania, in celebration of university day. A walking stick used by Benjamin Franklin and by him presented to Lafayette, will be a gift to the university by the president-elect. After the celebration, Mr. Taft will be the guest of the First troop Philadelphia City cavalry, and at night will attend the Pennsylvania university annual dinner. Mr. Taft expects to leave for New York Tuesday morning.

**Mother's Remarkable Birth Record.**  
Six brothers, born of the same mother in the same year, have appeared before the astonished military authorities at Antwerp to participate in the drawing of lots for compulsory service in the army. The case, which is probably the most remarkable on record, is explained by the fact that the mother gave birth to two sets of triplets in the same year, the first set being born in January and the second during the following December.
